Projects

ResourceHub | Resource Allocation Optimizer May 2025 – June 2025

Built a full-stack application for managing team assignments and tracking capacity allocation across projects with role-based dashboards and real-time analytics. Features smart allocation algorithms to prevent resource conflicts and optimize team utilization.

React, TypeScript, Node.js, Express, MongoDB, Tailwind CSS, JWT Auth, Recharts

Picslify | Photo Preservation Platform February 2025 – April 2025

Built a full-stack photo management application featuring user-created albums, secure JWT-based sharing with friends, advanced tag and person-based search, favorites organization, in-app commenting, and Cloudinary-backed storage with responsive, mobile-first gallery views.

React, Redux Toolkit, Bootstrap 5, Vite, Node.js, Express, MongoDB, Cloudinary, JWT Auth, Multer

CRMABLES | Lead Tracking System November 2024 – January 2025

Developed a comprehensive CRM system for managing leads, tracking sales pipelines, and analyzing team performance with real-time charts. Features include lead filtering, priority management, sales agent tracking, and automated reporting with role-based dashboards.

React, Redux Toolkit, Material-UI, Bootstrap 5, Chart.js, Node.js, Express, MongoDB

Education

DU SOL Sep 2022 – July 2025
